

CLAIMS

[CLAIM 1]

A built-in heating cooker comprising:

- 5 a top plate;
- a support supporting the top plate from underneath;
- a top frame covering an edge of the top plate; and
- a frame constituting a cooker body;

wherein the support has a cooker-supporting face for supporting the
10 cooker body, the cooker-supporting face being positioned at outside of a top plate-supporting face; a first opening is provided on at least one side wall disposed between the top plate-supporting face and the cooker-supporting face; and a second opening is provided on the top frame in a position corresponding to the first opening at a predetermined distance.

15

[CLAIM 2]

The built-in heating cooker as defined in Claim 1, wherein a flange is provided on a periphery of the frame; the side wall of the support is positioned further inward of the cooker body than the flange end; and the flange and a frame-
20 supporting face provided between the side wall and the cooker-supporting face are in contact.

[CLAIM 3]

The built-in heating cooker as defined in one of Claims 1 and 2,
25 wherein the side wall is provided underneath the top plate.

[CLAIM 4]

The built-in heating cooker as defined in one of Claims 1 and 2,
wherein a wall is provided on a periphery of the cooker-supporting face of the
5 support.

[CLAIM 5]

The built-in heating cooker as defined in Claim 3, wherein a wall is
provided on a periphery of the cooker-supporting face of the support.

10

[CLAIM 6]

The built-in heating cooker as defined in one of Claims 1 and 2,
wherein a sealing material is applied on an entire circumference of a bottom face of
the cooker-supporting face of the support.

15

[CLAIM 7]

The built-in heating cooker as defined in Claim 3, wherein a sealing
material is applied on an entire circumference of a bottom face of the cooker-
supporting face of the support.

20

[CLAIM 8]

The built-in heating cooker as defined in Claim 4, wherein a sealing
material is applied on an entire circumference of a bottom face of the cooker-
supporting face of the support.

25

[CLAIM 9]

The built-in heating cooker as defined in Claim 5, wherein a sealing material is applied on an entire circumference of a bottom face of the cooker-supporting face of the support.
